Introduction:

Welcome to an immersive arena built to challenge your mind, push your limits, and ignite your spirit of adventure. Across three exhilarating phases, you will plunge into shadowed halls to uncover hidden secrets, outsmart rivals through tactical strategy, and race against an unforgiving clock to break free from high-pressure chambers. Victory belongs to those who blend razor-sharp logic with relentless adrenaline. Trust your instincts, lean on your partner, and step into the unknown. The adventure begins now.

General Rules:

- This category consists of 3 rounds
- All rounds will be elimination based
- Teams will progress after each round
- The decisions of the judges are final

Round 1:
Delegate cap: 2
Duration: 3 hours
Round type: Elimination

During Round 1 (Intel Collection), teams enter in waves of eight to navigate two themed rooms: The Archive, a museum where hidden clues lie buried among the exhibits, and The Crypt, an ancient, silent chamber where those secrets must be unraveled. Teams move between both spaces to gather and decode ciphers, earning points along the way. The tally of triumph shall crown those of discerning eye and unrelenting intellect, ere the phase succumbs to silence

Round 2:
Delegate cap: 2-3
Duration: 3 Hours
Round type: Elimination

During Round 2 (Battleship), the competition shifts from physical speed to a high-stakes arena of tactical warfare. Divided into opposing command stations, teams must use the ciphers in order to launch calculated strikes, deploy defensive maneuvers, and sink their rivals' hidden assets across a grid. Out of network reach, partners rely purely on spatial logic, risk assessment, and psychological foresight to outthink their opponents and anticipate incoming attacks. Victory will belong to the strategist who strikes with precision, calculates without hesitation, and claims dominance before the grid is consumed by silence.

Round 3:
Delegate cap: 2-3
Duration: 2 Hours
Round type: Final

During Round 3 (The Escape Room), the surviving teams face their ultimate trial, trading open exploration for a locked, high-pressure chamber. Locked inside a claustrophobic maze of multi-layered puzzles, teams must synthesize every shred of logic, physical awareness, and remaining energy to break physical locks and bypass complex security systems. Moving as one, partners must scour the room for hidden keys, decode intricate mechanisms, and solve environmental riddles under a rapidly depleting clock.
